Information Technology Institute (ITI) ⟍ Alexandria, Egypt

Bachelor of Science in Computer Science (GPA: 3.51/4) 2019 – 2023
Menoufia University ⟍ Menoufia, Egypt

PROJECTS

Team Management System (Graduation Project) ⟍
- Created a graduation project at the University of Menoufia to boost efficiency by optimizing tasks for students and professors and streamlining processes like point allocation.
- Developed robust backend functionalities encompassing chat features, notifications, and user authentication (login and registration)
- Implemented frontend components such as the HomePage, login and registration interfaces, chat GUI, and user profile pages.
- Used .NET, Vue.js, Bootstrap, pusher-js and SQL Server (DB).

Maybell ⟍
- This project is an online store web application that allows users to browse products, add the mtotheir cart, make orders, and manage their profiles. Using **ANGULAR17, NODEJS,EXPRESSJS, MONGODB, TYPESCRIPT, TAILWINDCSS.**
- Engineered backend functionalities for managing the shopping cart and defining schemas.
- Created and Developed the frontend components for the shopping cart user interface, interactive charts display, and product search functionality.
- Used also some new packages like **CHARTJS,SWEETALRET,ANDSPLIDEJS**

Instagram Clone ⟍
- The project demonstrates an Instagram clone built with **PHP, Laravel, MySQL, Bootstrap CSS, Blade, and Vite. It also incorporates Composer, Eloquent ORM, Guzzle HTTP, Laravel Breeze, and Laravel Tinker.**
- Handled notifications, managed the database, sent emails, facilitated password resets, and implemented JWT authentication.
- Conducted the navigation bar, enabled users to create posts, and implemented search functionality for hashtags and users.

NorthStar Ecommerce ⟍
- An E-commerce store for clothes, Access to a wide selection of popular clothing items.
- Produced router.js for single-page application functionality.
- Crafted the HomePage, designed the navigation bar, and implemented the Footer for the user interface.
- Used **JavaScript, bootstrap, local storage.**

COURSES

Dotnet Developer Track Program (150 hrs) 01/2023 – 02/2023
Information Technology Institute (ITI) Menoufia, Egypt

Desktop Application Track Program (150 hrs) 01/2022 – 02/2022
Information Technology Institute (ITI) Menoufia, Egypt

CERTIFICATES

- MongoDB Associate Developer

SKILLS

Frontend Development
- Angular
- React
- Vue.js
- Html
- Css
- JavaScript
- Bootstrap
- Tailwand css

Backend Development
- Laravel
- Node.js
- Django
- Ruby on rails
- .Net

DataBases
- MYSQL
- Mongodb

Other Tools
- Git & GitHub
- Design patterns
- Docker & Container
- Agile methodologies
